

# ITT ACTIV8 S

Bridging the gap between the thorough cleaning of a walk-behind scrubber dryer and the user-friendliness of a traditional mop, the Activ8 S enables effortless, professional-level floor care for all users.

Compared to a conventional mop, Activ8 S saves 80% on water and cleaning agent usage and reduces cleaning time by 70%. Powerful high-pressure, high-frequency cleaning quickly dissolves even the toughest stains, instantly restoring the floor to pristine condition.

The powerful brushless motor and squeegee dry the floor quickly and efficiently, avoiding secondary pollution and delivering a great cleaning result.

The Activ8 S features a first-to-market wastewater tank with an air-solid-liquid separation system, effortlessly separating gases, liquids, and solid particles, facilitating a smooth disposal process for both wet and dry refuse, and eliminating the risk of drain blockages.

Specification	Detail
Dimensions (L x W x H)	49 x 53 x 120 cm
Cleaning Width	49 cm
Run time	70 minutes / 100 minutes (Eco Mode)
Charge time	2.5 hours
Productivity	1,100 – 1,600 m <sup>2</sup> /h
Solution/Recovery tank capacity	4 litres
Weight with battery	27 kg
Brush pressure	27 kg
Noise level	76 dB (A) / 71 dB (A) in Eco Mode
