

ITT Mini Bot III

The Mini Bot III new intelligent robotic machine that vacuums, mops & cleans itself. Featuring Voice Assistant, fully automated cleaning solution, powerful AIVI™ 3D and True Mapping technology.

AUTO-CLEAN

An ultimate hands-free solution that separates clean water and sewage, supports the automatic washing & drying of mop cloths and replenishes clean water by itself.

AUTO WATER REFILL

The Clean Station can clean itself with one tap, without the need for frequent disassembling and washing.

HOT AIR DRYING

After cleaning, the heating device can rapidly dry the clean mopping pads to prevent bacteria and odour.

ICE Mini Bot III	Detail
Dimensions	44.8 x 43 x 57.8 cm
Fresh Water Capacity	0.8 Ltr
Hopper Capacity	0.4 Ltr
Noise Level (mop cleaning)	68 dBA
Run Time	170 mins
Charge Time	6.5 hr
ICE Mini Bot III Docking Station	Detail
Fresh Water Capacity	4 Ltr
Dirty Water Capacity	4 Ltr
Noise Level (mop cleaning)	65 dBA
Hopper Capacity	3 Ltr
Nosie Level (dust collection)	3 Ltr
Dimensions	44.8 x 43 x 57.8 cm
