

# ITT SkyVac & WD60

## SkyVac

The SkyVac high level cleaning system includes poles and various accessories that can be attached to a Wet/Dry vac for easy and effective high-level cleaning. It includes a wireless camera system which has a built-in rechargeable battery inside. This allows you to see the areas being cleaned from ground level ensuring nothing is missed. There are no trailing wires, and the system can be easily used by one person. The cameras also have Night vision facility. The recordable monitor can even record directly onto a SD card to email your customers.

## ITT WD60

The ITT Vac WD60 is one of the largest wet and dry vacuums in the commercial range. It is ideal for cleaning medium to large areas. It is a professional vacuum cleaner with a powerful motor to ensure excellent surface drying. The ITT Vac WD60 compatible with the SkyVac poles for specialist high level cleaning of difficult to reach areas and gutters. This machine is extremely user friendly and easy to manoeuvre, thanks to its large wheels.
